SMALLHOLDER AGRIBUSINESS AND RESILIENCE PROJECT (SARP)

MINISTRY OF AGRICULTURE, LIVESTOCK, LANDS AND IRRIGATION

Selection of Company/firm/s, Cooperative Societies, Farmer Organizations for implementing market driven Agribusiness Development Public Private Producer Partnership Projects (4P) targeting smallholder farmers in SARP project locations

The Smallholder Agribusiness and Resilience Project (SARP) is co-funded by the International Fund for Agricultural Development (IFAD) and the Government of Sri Lanka. It aims to contribute to reduce poverty among small-scale farmers and increase food security and nutrition in dry zones by building resilience and enabling rural households to access markets in geographies affected by climate change. The project is focused in select hotspots in Vauniya, Mannar, Puttlam, Kurunegala and Mathale districts aligned across the Deduru Oya, Mee Oya and Malwathu Oya river basins.

The project development objective is to build resilience and market participation of rural households in geographical areas affected by climate change reaching 40,000 households. The development objective of the project will be achieved through implementing two components: component 1: focusing on capacity building for climate resilience and inclusive value chains and component 2: investments for climate resilience and inclusive value chains. Each of these components comprise two technical sub-components. By integrating climate adaptation, sustainable practices, and market linkage strategies, SARP aims to strengthen the livelihoods and resilience of smallholders, ensuring sustainable development in the face of ongoing climate challenges.

SARP will provide an assistance package consisting of technical training, matching grants, and assistance to obtain credit facilities to encourage farmers to invest in on-farm development activities and post-harvest handling, etc., to support farmers in meeting their Agribusiness requirements. Further, SARP will consider supporting infrastructure development interventions and off-farm development activities identified to strengthen the value chain, enabling smallholder farmers to be actively involved in the proposed value chain, aiming to improve household income by 30%.

Interested Companies / Firms, Co-operative societies, and Farmer Producer Organizations are invited to submit their Expressions of interest (EOI) (business idea/Concept note) to reach the SARP office to be considered for SARP assistance. The EOI submission template and the eligible Grama Niladhari Divisions belonging to SARP implementing locations can be downloaded from the project's website (www.sarp.lk)
